

INNOVATION  
for africa

---

# The Agenda

Innovation for Africa is an inter-disciplinary hub with an agenda to unlock the innovative potential of Africa to enable the continent to meet the sustainable development goals. This agenda is built on the premise that Africa has what it takes to identify and solve its developmental challenges, and to meet all its developmental needs.

## Our Vision

An Africa that is on the cutting edge of innovation and development

## Our Mission

To unlock Africa's innate potential

---

We are committed to

---

**Innovation**

We birth and implement new ideas, create dynamic products, and improve existing services

---

**Taking Responsibility**

We are accountable for development issues within our sphere of influence

---

**Partnership and Collaboration**

We are committed to building cooperative arrangements with relevant stakeholders to work jointly towards a common goal

---

**Sustainability**

We develop individual, community and institutional capacity to continue activities over an extended period of time while minimising financial risk

Our children may learn about heroes of the past.  
Our job is to make ourselves architects of the future.

Jomo Kenyatta

## Strategic Objectives

---

- To create an environment that fosters Innovation
- To initiate and facilitate dialogue and collaboration among professionals and institutions
- To bridge the gaps between academia and industry
- To facilitate research and respond to contemporary development issues by developing new initiatives
- To develop Ideas into Enterprise
- To build local, regional and international relations network able to effectively raise resources towards the Innovation for Africa Agenda

## The I4A Methodology

### **1. Identification**

In order to come up with solutions, we need an honest reckoning of the issues that face us. We need to specifically articulate, quantify and summarise problems in order that we might confront them and create solutions.

### **2. Conversation**

Innovation for Africa sets up relevant platforms via various media, meetings and events in order for the right conversations to take place.

### 3. Ideation

Africa is not short of ideas. These need to be dilligently harvested and stewarded. If creative thinking is stifled, development is stunted. When it is encouraged, taught and nurtured, innovation is unlocked and Africa's potential can be realised.

### 4. Collaboration

Africa's problems are best solved the African way - together! The right partnerships and the strategic drive for the mentorship of young entrepreneurs will produce results and will unlock the best of African innovation.

### 5. Creation

Quality innovation results in meaningful enterprise. Necessary to Africa's development is the creation of brand new products, the creation of startups, the creation of jobs, and the creation of investment opportunities.

Africa is not "communistic" in his thinking. He is, if I may coin the expression "communitary"

Julius Nyerere

## Activities & Programmes

---

- **Interface**

Bridging the gap between academia and industry

- **Innovation Training Track**

Empowering startups with design thinking skills with an emphasis on collaboration and mentorship

- **Business Evaluation**

Assisting ideators to evaluate their idea for business worthiness

- **Business Incubator & Accelerator**

Helping startups to grow and flourish through mentorship

- **Business Support Services**

Supporting start-ups in admin, accounting & marketing

- **Innovation Challenge**

Innovation competitions that address real life needs

- **Face-off**

An interface between startups and investors

- **Ideafest**

A multi-discipline showcase of ideas

- **R & D Forum**

An inter-discipline forum fostering innovation through R & D

- **Electronics Bootcamp**

Electronics camps for O'level and A'level Physics students

- **V8 Summit**

A series of conferences and conversations around innovation

Originality is the essence of true scholarship.  
Creativity is the soul of the scholar

Nnamdi Azikiwe

## Board of Trustees

### **Rumbidzai Chineka, MBCHB**

Passionate about maximising potential and playing a part in improving healthcare in Zimbabwe. Rumbi works as a Hospital Medical Officer for the Ministry of Health.

More than ten years managerial experience in multiple areas of legal and administration. Her current passion is coaching individuals to help them attain success in being the best they can be. She is multilingual and has lived in Tanzania, Mozambique and Zimbabwe

### **Mpi Ndebele**

An innovative thinker passionate about strategy and developing people. Enjoys discovering passion and energy in people and helping them develop corporate identity and culture

Revolutions are brought about by men, by men who think as men of action and act as men of thought.

Kwame Nkrumah

## Partnerships & Collaborative Exercise

---

At the core of Innovation for Africa's ethos is the need for strategic partnerships and collaboration. Innovation for Africa partners with likeminded individuals and organisations including:

- Professionals across disciplines
- Students across disciplines
- Academic institutions
- Startups and other SMEs
- Industry and commerce
- Business support bodies and institutions
- Local and national governments
- Innovation and tech hubs
- Donor agencies and organisations
- Embassies and other international partners

The only man I envy is the man who has not yet been to Africa - for he has so much to look forward to.

Richard Mullin
